ThermWise insulation rebates change

In accordance with a March 31, 2009, Utah Public Service Commission order, ThermWise insulation rebates are being reduced. Effective May 2, 2009:

- Attic-insulation rebates will be reduced from \$.35 to \$.20 per square foot;
- Floor-insulation rebates will be reduced from \$.35 to \$.20 per square foot;
- Wall-insulation rebates will be reduced from \$.45 to \$.30 per square foot.

Insulation work *completed* on or before May 1, 2009, qualifies for the higher rebate amount if a completed rebate application for that work is postmarked on or before June 30, 2009.

Customers can find more information about rebates and tips on how to conserve natural gas at www.ThermWise.com.
